Introducing FlexLine™

The easy-pay business line of credit

How does FlexLine Work?

FlexLine is a business line of credit that leverages your credit and debit card sales to make easy daily payments.

And because we take a small percentage of your credit/debit sales, the amount you pay back corresponds with your sales. If business is booming, you pay us back faster. If it's slow, you pay us back slower. Think how great that is for your cash flow.

It's a line of credit, so as soon as you have room available you can use it again.

Who should apply for FlexLine?

Our typical clients are bricks-and-mortar business owners that accept credit and debit card payments and have been in operation for at least two years.

What are the benefits of FlexLine?

- ✓ FlexLine is the easy-pay business line of credit and with Bluecap, there are no set payments required.
- ✓ Payments are based on a small percentage of your daily Visa, MasterCard, AMEX, and debit card sales.
- ✓ Bluecap doesn't get paid unless you get paid, which helps you manage your cash flow during slow periods.
- ✓ Applying for FlexLine is free of charge and painless compared to applying for traditional loans.
- ✓ FlexLine rates are fair and competitive.
- ✓ No mountains of paperwork. Approvals are significantly higher than traditional bank loans.
- ✓ No need to switch credit card processors.

How can FlexLine help your business?

With FlexLine, you decide how to best use your funds to help your business succeed.

Every business faces that critical point when it's time to renovate, expand, or purchase new inventory. Perhaps you want to hire an ad agency or just need assistance getting through a slow season.

At Bluecap, we understand what your business means to you and that's why we offer an easy-pay business line of credit that's a painless solution to financing.
